

Spiral Dynamics

with EJ Niles

Introduction to the Spiral (morning session) and
The Bible Through the Lens of the Spiral (afternoon session)
Saturday, March 20th 9:30am to 4:30pm

During the morning session, EJ Niles will introduce us to the concept of Spiral Dynamics. Spiral Dynamics can be used as a model to trace the evolution of consciousness throughout time. In the afternoon we will look at how biblical writings can be seen in light of the predominant consciousness of the times. By using Spiral Dynamics as a tool, we are able to see how humankind's spiritual consciousness evolved and how our individual consciousness has evolved as well. Lunch \$10. Workshop and Childcare on a Love Offering Basis.

Exploration Into God
Sunday, March 21st 1:30pm to 3:30pm

To understand the evolution of spiritual consciousness we must first understand how humankind's perception of God has evolved. We will also explore how our individual perceptions of God influence our spiritual understanding. Childcare and Workshop on a Love Offering Basis.
